

*Presented by: Amherst-Pelham Regional Public Schools, Special Education Parent Advisory Council, MA Early Intervention Training Center, and Thom Western Regional Consultation Program.*

## Raising A Happy Child

Raising happy children is the goal of parents and educators alike. Happiness is a gift we gift ourselves and our children. Too often we hope it finds us or we pursue it in places or ways it will never be found. Together, we will be introduced to the pursuit of happiness for our children: defining it, examining attributes that lead to it and applying ways to behave that achieve it.

**Come celebrate the beginning of summer with a thoughtful powerful exploration of how we influence, enhance, and support children of ALL AGES!**

## Jeanine Fitzgerald

*As a certified Human Behavior Consultant and Specialist, and Owner of The Fitzgerald Institute of Lifelong Learning, Jeanine draws on more than 30 years of professional experience to empower teachers and parents to achieve more with children "at risk".*
