

# Research Participants Needed for Driving Simulator Study

The Arbella Insurance Human Performance Laboratory (HPL) in the Department of Mechanical & Industrial Engineering at the University of Massachusetts is looking for licensed drivers ages 16-18 with either a JOL or up 1 year of driving experience and ages 30-55 with 7-10 years of driving experience to participate in a driving simulation. Those with diagnosed Attention Deficit Disorder (ADHD/ADD) are encouraged to respond. Each session is usually about an hour and participants will be compensated \$30 for their time.

## The Lab's Research Focuses on:

- Evaluation & training for at-risk populations (younger and older drivers)
- Driver distraction and attention maintenance
- Crash awareness and prevention
